

my promise to you...

"I am committed to these treatments and know firsthand that they are the safest and least painful methods for effective hair removal, vein therapy, wrinkle reduction and skin rejuvenation.

Over the years I have had requests for aesthetic services and after extensive research and training I have started Good Health Rejuvenation to offer you the safest and most advanced services. I promise to treat you with professionalism, respect and privacy."

Dr. Michele Polon

Good Health Rejuvenation Technology

Good Health Rejuvenation uses the latest technology available to provide you a safe, effective and virtually painless treatment for many aesthetic procedures available today.

We are proud to offer elōs™, the first and only technology that uses bi-polar radio frequency and laser light energies to effectively treat you, outperforming all systems that use only one energy. This system also uses a unique cooling device that provides enhanced patient safety and comfort. elōs™ is truly the next generation of safe and effective aesthetic treatments and Good Health Rejuvenation is making it available to you.

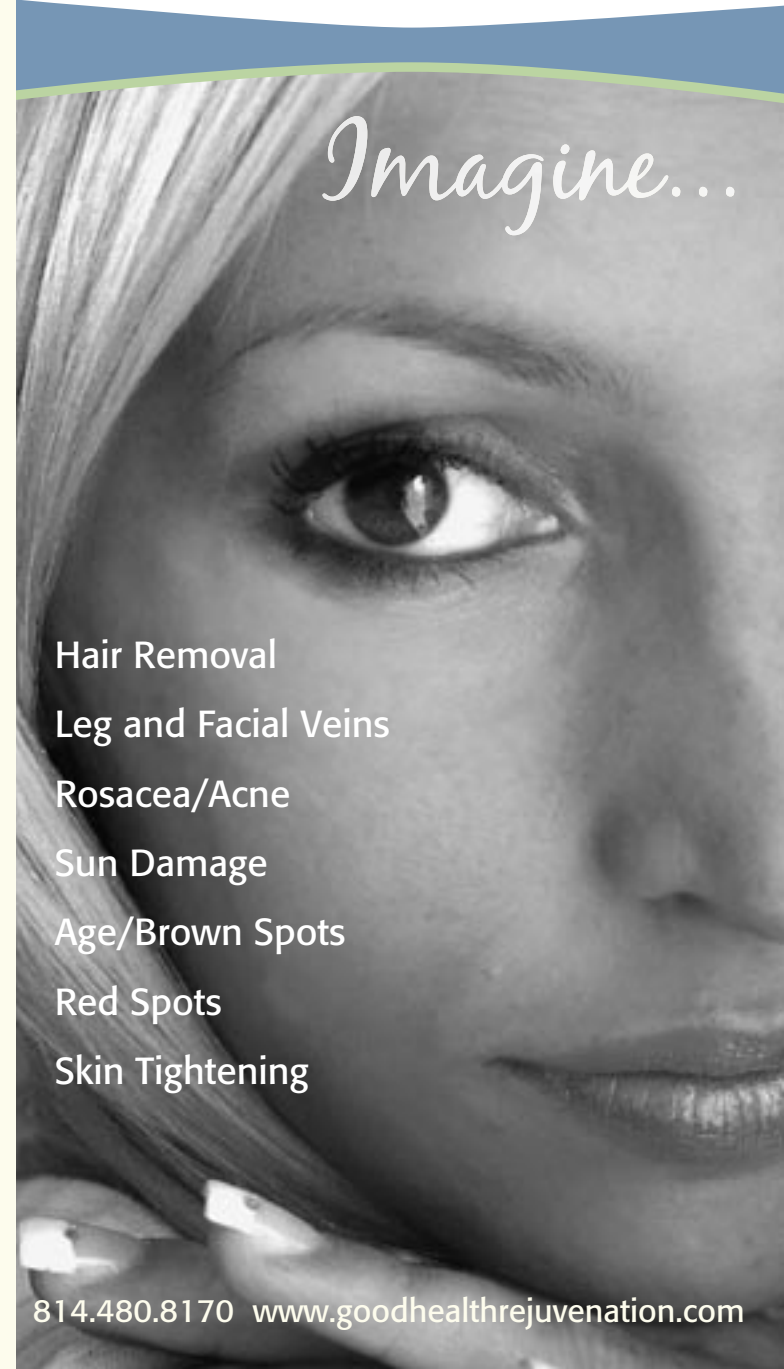

Go ahead and feel rejuvenated, you deserve it!

Imagine...how you'll feel as a patient of Good Health Rejuvenation! Contact Good Health Rejuvenation for a consultation at 814.480.8170 or questions@goodhealthrejuvenation.com today.

Imagine...

Imagine your skin is smoother, clearer, more radiant. Picture yourself with fewer wrinkles, age spots, spider veins. It can be your reality today.

Dr. Michele Polon and the Good Health Rejuvenation team specialize in the most effective laser vein, hair removal and skin rejuvenation technology available today.

Dr. Polon currently treats...

- Unwanted and Excessive Hair
- Leg and Facial Veins
- Rosacea/Acne
- Sun Damage
- Age/Brown Spots
- Hemangiomas/Red Spots
- Wrinkled and Sagging Skin

This list denotes a few of the most frequently treated problems. Multiple treatments may be required to achieve desired results. Please call Good Health Rejuvenation at 814.480.8170 to discuss your specific aesthetic and dermatological needs.

TIGHTENING AND FIRMING

Visible face lifting and wrinkle reduction after just one treatment.

This radio frequency technology comfortably produces noticeable results after just one treatment. Achieve fewer wrinkles and a tightened appearance with no required downtime.

LASER HAIR REMOVAL

Man's leg after just two treatments.

A faster, safer way to remove hair of all colors and textures, this cutting-edge technology emits gentle pulses of energy. Reduce potentially harmful side effects by treating the target area only, not surrounding tissue.

VEIN AND VASCULAR TREATMENT

Leg veins significantly reduced after just three treatments.

The average laser vein procedure at Good Health Rejuvenation takes less than 30 minutes to perform and coupled with our unique cooling device, provides safe and beautiful results. Imagine returning to work and daily activities immediately after treatment.

SKIN REJUVENATION

Clinical photo reduction of red spots after five treatments.

Look as young as you feel by treating skin imperfections. The combined technology is great in treating acne, rosacea, sun damage and red/brown spots to reveal smoother, more youthful skin gently and effectively.
